

Promise Plans Overview

We're honored to be part of your family-building journey.

Complete Cohort

One simple path. One all-inclusive price. One step closer to growing your family.

Fairfax EggBank's newest program, Complete Cohort, was designed to make your journey to parenthood easier, clearer, and more supported than ever before.

Complete Cohort includes one cohort of frozen eggs (6-8 eggs), and one egg warming cycle, including an embryo transfer.

It's a simpler, more transparent path forward—so you can focus on what matters most: building your family with confidence.

What's Included:

- One cohort of 6–8 frozen donor eggs from one of our rigorously screened donors
- One egg warming cycle, with embryo transfer
- All routine embryology work: ICSI fertilization, embryo culture, and embryo transfer
- A dedicated Fairfax EggBank coordinator who supports you through every step of the matching process.
- A comprehensive* guarantee— and if it's not met, you'll get a replacement: a new cohort of eggs, PLUS an egg warming cycle with transfer

Why Complete Cohort:

Peace of mind: Our blastocyst guarantee means your investment is protected

Simplified Process: One price. One place. No separate bills for core IVF services

Stronger together: Offered through your fertility clinic and Fairfax EggBank—two trusted leaders in fertility care

Additional Information

If you do not have an embryo for transfer, freeze, or biopsy, we will replace the cohort of eggs as well as the egg warming cycle, with embryo transfer, at no additional cost. Sperm criteria does apply for the replacement acceptance.

Parenthood Promise

Bring Home a Baby—Or Your Money Back

With peace of mind pricing and a 100% money-back guarantee, Parenthood Promise supports you through every stage of your journey. This program is perfect for patients that have insurance coverage for the egg thaw treatment.

Parenthood Promise provides access to up to six egg cohorts (6-8 frozen eggs per cohort).

You're guaranteed a baby — or your money back.

What's Included:

Up to six frozen donor egg cohorts (6–8 eggs each); you pay your clinic for the egg thaw and embryo transfer cycles

100% refund if you don't bring home a baby

50% refund if you withdraw between cycles

Locked-in, predictable pricing

A database of 450+ FDA-compliant, thoroughly screened, diverse donors from which to choose

Why Parenthood Promise:

Financial peace of mind: Get a 100% refund if you don't bring home a baby

More chances, less stress: Up to six egg cohorts included—so you can try again if needed, without added costs

Stronger together: Offered through your fertility clinic and Fairfax EggBank—two trusted leaders in fertility care

Additional Information

All embryos from one cohort of eggs must be used before moving to another warming cycle. Some patients achieve success and deliver a baby with just one cohort, while others may need multiple cohorts and cycles to reach that same goal. Six cycles are not guaranteed as each cycle is reviewed. If the determination is made to withdraw you from the program, you will receive a 100% refund of the plan fee paid.

Parenthood Promise+

Bring Home a Baby—Or Your Money Back

With bundled pricing and a 100% money-back guarantee, Parenthood Promise+ supports you through every stage of your journey—from donor selection to embryo transfer—with transparency, flexibility, and expert care.

Parenthood Promise+ provides access to up to six egg cohorts (6-8 frozen eggs per cohort), along with associated warming cycles and unlimited frozen embryo transfers.
